

Multi-Layer Shield Cable Stripping Machine

RSA-CCS-Q70

Feature

- ▶ Driven by a servo motor, with high accuracy and stable operation;
- ▶ Quantitative setting, production capacity display;
- ▶ Full digital adjustment, simple operation;
- ▶ Classified authority management.

Specification

Model	RSA-CCS-Q70
Function	Cut the shield braid and peel the metal inner and outer insulation
Processing line diameter	3-70 mm ²
Stripping length	5-110mm
Cutting length of the shield braid	5-100mm (customized beyond this specification)
Voltage	AC220V 50/60Hz 16A
Power	4KW
Weight	About 200kg
Working air Pressure	0.5-0.7mpa
Dimensions	1130*1350*1300mm
