

8T Terminal Crimping Machine (with Inverter)

RSA-TC-80E

Feature

- ▶ Adjustable shut height, with an accuracy of up to 0.03mm.
- ▶ Matches various crimping applicators and quick changeover.
- ▶ Simple transmission design and the operation is stable and reliable.
- ▶ Energy-saving. Energy is consumed only at the moment of crimping.
- ▶ Low-noise design to provide operators with a quieter working environment and reduce fatigue.
- ▶ Unique overload protection to ensure operational safety.

Specification

Model	RSA-TC-80E
Applicator	European-style applicator
Wire Range	0-16MM ²
Shut Height	135.78MM
Stroke	40MM
Crimping Force	80KN (8Ton)
Power	3.0KW
Voltage	AC220V 55HZ/60HZ
Weight	220kg
Dimension	L450mmxW420mmxH1010mm
