

Intelligent Digital Microscope

RSM-DM-1200

Feature

- ▶ Work for various scenario. Suitable for circuit board inspection for electronics industry, wire harness product appearance inspection, watch maintenance, printing inspection, textile inspection, fine engraving, etc.
- ▶ Better microscopic clarity guaranteed by high definition zoom lens.
- ▶ Accurate measurement with measuring tools by connecting the computer with Micro USB.
- ▶ 7" large LCD display and 1-1200x continuous zoom magnification to provide seamless and intuitive inspection.
- ▶ Aluminum alloy holder can be adjusted for angle and height according to operator' s habit for comfort and easy operation.

- ▶ Angle adjustable. Especially friendly for electronic maintenance personnel who may encounter reflection of miniature object such as PCB board, tiny chips.
- ▶ Longer object distance, leaving operating space for the use of tweezers and soldering iron under the microscope, which is more convenient.
- ▶ Built-in 8 LED lights, whose light is uniform, soft and friendly to operator' s eyes. Brightness adjustable.

Specification

Model	RSM-DM-1200
Screen	7-inch HD LCD display
Holder	Aluminum alloy adjustable holder
Mode	Photo/Video
Pixel	HD 12 megapixel
Magnification	1-1200x continuous amplification system
Object Distance	20mm-170mm
Effective Focal Length	30mm-140mm
Auxiliary Lighting	8 white LED lights
Video Resolution	1080FHD/1080P/720P
Interface/signal Transmission	MICRO/USB2.0
Support Operating System	Windows XP、WIN7、WIN8、WIN10、Mac OS*10.5 or above
Storage	32GB
Power	1.95w
Language	English, Spanish, Russian, Korean, Japanese, Thai, Hebrew, Portugal, German, French, Italian, Turkish, Czech, Polish, Traditional Chinese, Simplified Chinese.
Dimension	L185mm×W165mm×H360mm(Stage: L120mm×W165mm)

Configuration
