

Sleeve Thermal Cutting Machine
RSM-TCM-100

Feature

- ▶ Microcomputer control for easy setting of cutting length and cutting speed.
- ▶ Thermal cutting can consolidate the cutting edge and make it more robust and burr free.
- ▶ The machine is designed to cater for ergonomics, user friendly.
- ▶ Cost-saving. Intuitive operation panel, new employees can get started with simple training.
- ▶ The machine allows cutting of two sleeves at the same time (sleeve width≤20mm), which can multiply the efficiency.
- ▶ Adopt safety cover to ensure safe operation and prevent physical injuries.

Specification

Model	RSM-TCM-100
Sleeve Width	1-100mm (adjustable)
Sleeve Length	0.1-9999.9mm (adjustable)
Cutting Speed	1800pcs per hour (100mm)
Cutting Quantity	1-99999pcs(automatic stop when set quantity is reached)
Sleeve Feeder	Sleeve reel height≤300mm
Power	1000W
Voltage	220V/50Hz (Single Phase)
Weight	80kg
Dimension	L560mm×W560mm×H1000mm

Optional
Inductive Sleeve Feeder
