

Glue Dispenser
RSM-GDM-331U

Feature

- ▶User-friendly with four-axis controller which can set the different gluing track, and the machine automatically turns over after one side of gluing is finished.
- ▶Diversified functions, and suitable for gluing of various products within the range of stroke.
- ▶Gluing track adjustable, which can ensure accurate gluing position and uniform glue amount.
- ▶Good work continuity with 50ML glue barrel for sustainable gluing. Avoid the trouble of adding glue frequently.
- ▶Safety guaranteed by emergency stop button.

Details Description

Specification

Model	RSM-GDM-331U
Processing Range	300 / 300 / 100 X/Y/Z/(mm)
Glue Dispense Stroke	300mm*300mm*100mm*360°
Accuracy	±0.02mm
Glue Barrel Capacity	50ML
Glue Dispense Station	One
Glue Dispense Amount	Adjustable
Air Source	0~0.4 MPA/CM
Air Source for Glue Dispense	0.1 MPA/CM (adjustable according to the actual situation)
Voltage	AC 220V (single phase)
Power	500W
Ambient Temperature	-20 – 45 ° C
Ambient Humidity	20 – 90% (no condensation)
Weight	60kg
Dimensions	L590*W520*H610mm
