

Charging Station Harness Rotary Heat Shrinking Machine

RSM-HSM-0AF

Feature

- ▶ Multi-strand charging station harness can be heat shrunk in one time with 360° shrinking rotation unit, to make sure even and robust tube shrinking.
- ▶ No damage to charging head and corrugated tubes on charging station harness. Set extension distance and position can be accurately performed.
- ▶ Quick changeover of fixing jigs/fixtures, which can be quickly replaced according to different types of wire harnesses.

Specification

Model	RSM-HSM-0AF
Heating Method	Hot Air
Temperature Range	0~400°C
Charging Station Head O.D.	175mm (Max.)
Extension Distance	300mm (Max.)
Ports	Network interface, 232 interface, USB interface
Air Source	0.45Mpa
Voltage	AC380V
Current	15A
Power	10KW (Max.)
Dimension	L1500mm*W425mm*H770mm
