

HST Shrinking Machine With Printing Function

RSM-HST-525P

Feature

- ▶ Equipped with wire released gripper for universal wire.
- ▶ Adopt heat transfer printing technic , to guarantee the clear printing content with accuracy of 300 dpi. All the contents printed can be save as recipe.
- ▶ The thermal transfer ribbons can be installed with type of self-locking, easy to change. The printing color of black , white and red are applicable to satisfy various of processing requirement.
- ▶ Equipped with digital control to the temperature and the monitor to the heating unit , providing the protection to the heating unit when the air pressure is low over. thereby to extend the usig life.
- ▶ With thesystem reset function to prevent the wrong setting of the processing data by the operator.

Specification

Model	RSM-HST-525P
Power	220V-AC, Single Phase Or Customized
Frequency	50/60HZ
Rated Power	1450W
Cylce Time	2.5S
Tube O.D.	Φ2.0-Φ6.0 or Customized
Tube Baking Length	6mm-35mm Or Customized
Baking Temperature	0°C-380°C Can be set according to the requirement.
Air Pressure Requirements	0.55-0.65 Mpa
Weight	82kg
Overall Dimension	L740mmxW640mmxH1270mm
