

Six-point Crimping Applicator

RSM-JPA-606

7 DAYs
lead time

Feature

- ▶ High accuracy with 0.03mm, enhancing the stability and consistency of crimping quality.
- ▶ Crimp pins to make sure even force applied to the terminal, providing better electrical connection.
- ▶ Required crimping force is relatively small, making it suitable for precise crimping of new energy terminals and aviation pins.

Specification

Model	RSM-JPA-606
Applicable Crimping Press	Crimping press of 4T or under 4T, 4T servo terminal crimping press, pneumo-hydraulic crimping press
Crimping Shape	Point Crimping
Stroke	0-30mm (adjustable)
Wire Size	1-6mm ²
Crimping Accuracy	±0.03mm
Crimp Pin Chamfer	0-R1.0mm (customized)
Crimp Pin Service Life	About 100,000 cycles or more
weight	5KG
Dimension	L146mm×W80mm×H150mm
