

Electric Grommet Expander

RSM-GEM-100

Feature

- ▶ Adopt servo motor, expansion range and speed can be easily adjusted on HMI to meet a wide range of grommet insertion needs.
- ▶ Safer and more comfortable operation. Finished grommet can be automatically released (speed adjustable), which enhance operator comfort and reduce fatigue.
- ▶ Good consistency. It ensure consistent and uniform expansion of grommets, leading to more reliable and high-quality wire harness assemblies.
- ▶ User-friendly. Parameters are adjustable on HMI and the operation of the machine is straightforward.
- ▶ Superior safety capabilities. The machine needs both hands to start, preventing injury caused by misoperation.

Specification

Model	RSM-GEM-100
Expansion Range	10-100mm
Stroke	130mm
Applicable Product	Grommet (rubber)
Adjustment Method	Electric
Tact Time (expanding tool only)	3-5 sec
Power	800W
Voltage	AC 220V/110V 50/60Hz
Weight	120kg
Dimension	L580mmxW450mmxH400mm
