

Semi-automatic Grommet Insertion Machine

RSM-GIM-002

Feature

- ▶ Labor-saving. The machine will improve the productivity and save the invest in 2-5 labors.
- ▶ High compatibility. Fixtures allows for insertion of various grommets, and the changeover time is 15 minutes.
- ▶ Superior safety capabilities. The machine needs both hands to start, preventing injury caused by misoperation.
- ▶ Compact design to adapt to and save the operation space.

Specification

Model	RSM-GIM-002
Grommet Dimension (Max)	Diameter:30mm Thickness: 20mm (Square grommet: 30mm*30mm*20mm)
Productivity	5s/hole
Voltage	220V/50Hz (single phase)
Power	200W
Air Source	0.5-0.8MPa
Weight	45kg
Dimension	L1020mm*W440mm*H340mm
