

Semi-automatic pipe threading machine

RSM-SIM-1000

Feature

- ▶ Highly applicable. Wire harnesses can be inserted into various pipes like PVC pipes, corrugated pipes, or braided pipes.
- ▶ Threading length is unlimited. The length of the machine is customized according to the material length.
- ▶ User-friendly. All parameters can be set and adjusted on HMI.

Specification

Model	RSM-SIM-1000
Application	Single or multiple wiring harnesses run through PVC pipes, corrugated pipes, or braided pipes
Threading speed	1.2 sec/meter (excluding loading and unloading)
Productivity	460pcs/h (1.2meters long)
Air Source	0.5Mpa
Power	400W
Voltage	220V/50HZ (single phase)
Weight	40KG
Dimension	L(According to the material length)*W210mm*H280mm
